## SYSTEMS & SOFTWARE INC.

---

**PRESS RELEASE**

**For Immediate Release**

**MANNARINO SYSTEMS & SOFTWARE INC. OBTAINS ISO 9001:2008 CERTIFICATION**

**Montreal, Quebec, Thursday, 27 November 2008**

John Mannarino, President of Mannarino Systems & Software (MSS) is pleased to announce that effective 21 November 2008 MSS was accredited and achieved ISO 9001:2008 certification by NQA Canada.

“We are very proud to announce that ISO 9001:2008 certification has been successfully achieved after having diligently worked for a period of 15 months to put in place a Quality Management System that has now been approved to the latest ISO standard”, said John Mannarino. “Our Quality team as well as all our staff members contributed to this very successful audit and they are to be commended on the final outcome which was achieved within one week of the NQA audit. This accomplishment is in line with our 3-5 year strategic plan and will help us meet our objectives in an economic time where companies need to excel in every way possible to remain competitive and provide customers with increasing value and an excellent customer experience.”

MSS also wishes to extend its thanks to all its customers and stakeholders for their past and continued support.

MSS is a privately-held company specializing in systems & embedded software engineering which serves the industrial, aerospace & defense sectors. MSS’ core competencies lie in the areas of gas turbine engine control systems, avionics, UAV systems/software, ground support equipment software and industrial engineering applications.
